PREFACE

This report was compiled primarily as a reference on New Jersey’s Superior Court caseload between the 2018 and 2022 court years (exclusive of the Appellate Division) which include July 1, 2018 through June 30, 2022. It is a compilation of data on filings, resolutions (in previous publications, we referred to resolutions as cases disposed or cases terminated), clearance, active pending, backlog (the number and percentage of cases not within generally accepted case processing guidelines), and backlog per 100 filings. The Superior Court Caseload Reference Guide includes graphs of each five-year set of data. For example, the following graph shows Atlantic County’s Combined Trial Court filings from 2018 to 2022. The graph plots each point in the table.

COMBINED TRIAL COURTS FILINGS

	2018	2019	2020	2021	2022	Percent Change 21-22	Filings				
							18	19	20	21	22
Atlantic	32,617	32,308	28,556	23,778	26,260	10%					
Bergen	62,216	59,225	49,337	44,558	43,921	-1%					
Burlington	40,188	40,448	33,993	26,625	29,379	10%					

This report should be used as a working reference guide for court personnel who understand how cases are filed, counted, and managed since no explanations or interpretations of the data are included.

Please note that tables of the number of cases cleared each year do not necessarily correspond to the increase or decrease in the number of cases pending from year to year. Recounts are often made to pending data to adjust for errors which occur in the reporting process.

Several changes to data collection forms were made before and during the five-year period. The following table provides an outline of changes.

BACKLOG PER 100 MONTHLY FILINGS

Definition: Backlog/(Most Recent 12 Months of Filings/12) * 100

Example: Criminal Division Backlog in June 2022/(Criminal Division Filings in July 2021 – June 2022 / 12) * 100 = 163

$$5,953 / (43,728 / 12) * 100 = 163$$

There were 185 cases in backlog in the Criminal Division in June 2022 per every 100 average monthly filings in July 2021 - June 2022.

The 'Most Recent 12 Months of Filings' is a rolling number each month. For example, June 2022 backlog per 100 monthly filings uses July 2021 to June 2022 filings as the denominator. July 2021 backlog per 100 monthly filings uses August 2020 to July 2021 filings as the denominator.
